Education

University of California, Santa Cruz

Masters of Arts in Mathematics

Santa Cruz, CA

Sep 23, 2021 - June 2022 (Planned)

University of California, Santa Cruz

Bachelors of Science in Mathematics with Magna Cum Laude

Santa Cruz, CA

Sep 18, 2018 - June 11, 2021

Research Experience

Math Education Research Group

With Dr. Judit Moschkovich (3 hrs/wk)

University of California, Santa Cruz, CA

Sep 24, 2019 - Jun 11, 2021

- Supporting three PhD candidates by being an extra set of eyes for classroom data, conference presentations, etc.
- Read and discuss past and current research (journal articles, books, presentations)

Work Experience

Maxar Technologies, Space Program Delivery

Returning Software Engineer Intern (40 hrs/wk)

Jun 13, 2021 - Sep 11, 2021

- Created a webtool to handle automated ingestion of redline files into Oracle database.
- Used and learned about Flask python framework, Object-relational mappers and the LDAP protocol.
- Presented to team of potential users for internal webtool.

Software Engineer Intern (40 hrs/wk)

Jun 12, 2020 - Sep 10, 2020

- Discovered major vendor error on critical hardware of spacecraft that had to be taken off and fixed
- Wrote over 3k lines of Tcl code to perform negative testing of spacecraft commanding

Jose Valdes Math Institute

Classroom Program Assitant (32 hrs/wk)

Stanford University

Jun - Aug 2018 and Jun - Aug 2019

- Taught math lessons to a class of 20 middle-schoolers, some in Spanish
- Chaperoned the class to anywhere we needed to be on Stanford campus

Coding Projects

Pokemon Battle Simulator

🐙 [pokemon-python](#)

- 40x faster than leading battle simulator with AI vs AI battles
- Has been forked and starred by other coders in the community.

Taylor Swift Translator

🐙 [taylorswifttranslator](#)

- Uses natural language processing API from IBM to map input phrases to the most similar lyric

Minecraft Computer

- I followed the textbook *Elements of Computing Systems* by Noam Nisan and Shimon Schocken to construct a complete, general purpose computer from NAND gates in the video game Minecraft.
- Programmed an assembler and then wrote a program to compute the n th Fibonacci number.

Skills

- Java, C, Python, Javascript, Tcl, MatLab, Bash, SQL
- TensorFlow, Numpy, Pandas, Flask
- Fluent in Spanish
